GOVERNMENT ENGINEERING COLLEGE, PATAN

A Report on TREE PLANTATION on 10th July 2019 of NSS GEC,PATAN

**NSS Unit Name/College Name: Government Engineering
College, Patan**

Event Name: Tree Plantation

**Event Date, Time and Location: 10 July 2019, 11:00 a.m., at
college campus**

Brief Description of the Event:

"Imagine if trees gave off WiFi signals we'd be planting so many trees, we'd probably save the planet. Too bad they only produce oxygen we breathe".

Planting a tree is a lifelong investment. How well this investment grows depends on the type of tree selected and the planting location, the care provided during planting, and the follow-up care after planting. Getting your new tree off to a healthy start will help the tree mature to its full size and ensures it will provide environmental, economic, and social benefits throughout its lifetime.

SURVE AND EXCAVATION PROGRAM BEFORE TREE PLANTATION : Unit GEC Patan organized tree plantation program in government engineering College, Patan campus on 10th July 2019 at 11:00 a.m. Actual program activity was started from 8th July 2019, as NSS unit members plotted the whole campus for the best places to plant the tree which ensures availability of water, fertility of soil and availability of enough sunlight. After surveying they dig some wallows. Before a day of plantation, it was assured that collection of tree plants are already done. Professor taught some techniques, how to plant saplings and feed water effectively

THE DAY OF TREE PLANTATION:

On 10th July, 2019, Tree plantation programme was inaugurated by planting a sapling by our honorable Principal H.S. Patel sir with well worshiped in the name of God. Staff member, students & NSS team actively participated in the program and many trees were planted at various places within campus as, in front of administration and electrical department, besides EC and civil department, near to Mechanical department, boys & girls hostel's ground. Several types of sapling were plants like borsalli, neem, Tulsi, aelovra, champa etc. NSS team and NSS program officer Dr. A.K. Chaudhary, Prof. B.B. Patel, Prof. R.A. Chaudhary and Prof. N.J. Mistry took great efforts to conduct program smoothly. All planted trees are not just saplings, but they are new members of GEC Patan.

Major Outcomes of Event:

- It maintaining bio diversity.
- Trees are the conservation of water.
- It helps to understand how to planting tree.

Global warming could not be solve easily if people are not very well practice in lowering carbon emission, law and regulation's implementation and effective forests and agriculture management. The solutions for this issue will be more effective when individuals change their lifestyles. Individuals can contribute to reduce the changes in the global climate through changing their habits. We must try our best to solve the problem and strive as much as possible to reinstate our earth for sake of future generation.
